Gilat Receives \$4M in Orders for Advanced Portable Satellite Terminals from Global Defense Customers

Gilat's Portable Terminals Deliver Exceptional Performance, Durability and Ease of Deployment

Petah Tikva, Israel, January 28, 2025 —Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that its wholly owned US-based subsidiary, Gilat DataPath, has been awarded \$4M contracts from global Defense customers. These orders, for the company's CCT200, CCT120 and QCT90 portable terminals, are slated for delivery over the next 12 months.

Gilat DataPath's C-Series and Q-Series Portable Satellite Antenna Terminals (PSATs) are renowned for their robust performance and rugged design. Engineered to withstand harsh environmental conditions such as wind, rain, dust, and extreme temperatures, these terminals are rigorously tested to meet the MIL-STD-810G standard while maintaining a compact and sleek design.

The advanced antenna technology powering the CCT200, CCT120, and QCT90 ensures reliable, high-speed connectivity in even the most challenging operational environments. These follow-on orders reflect the continued trust and satisfaction of defense organizations worldwide with Gilat DataPath's solutions.

“The global defense landscape demands reliable, high-performance communication solutions capable of operating seamlessly under extreme conditions,” said **Nicole Robinson, President of Gilat DataPath** “Gilat DataPath portable SATCOM terminals are meticulously designed to meet these requirements, offering exceptional durability, ease of transport, and operational simplicity. These terminals empower Ministries of Defense with the critical connectivity they need to support diverse and dynamic military operations.”

Gilat DataPath innovative SATCOM solutions continue to strengthen its position as a trusted partner for defense organizations around the globe, ensuring mission-critical communications are always within reach.

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we create and deliver deep technology solutions for satellite, ground, and new space connectivity and provide comprehensive, secure end-to-end solutions and services for mission-critical operations, powered by our innovative technology. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Our portfolio includes a diverse offering to deliver high-value solutions for multiple orbit constellations with very high throughput satellites (VHTS) and software-defined satellites (SDS). Our offering is comprised of a cloud-based platform and high-performance satellite terminals; high-performance Satellite On-the-Move (SOTM) antennas; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense, field services, network management software, and cybersecurity services.

Gilat's comprehensive offering supports multiple applications with a full portfolio of products and tailored solutions to address key applications including broadband access, mobility, cellular backhaul, enterprise, defense, aerospace, broadcast, government, and critical infrastructure clients all while meeting the most stringent service level requirements.
